FOUNDING OF THE INSTITUTION.

Lebanon Valley College came into existence to supply an absolute want. Denominational growth and an advancing civilization rendered it necessary for the Church of "The United Brethren in Christ," throughout the States of Pennsylvania, Maryland and Virginia, to make special provision for the moral and intellectual culture of her children. After much deliberation and prayer, it was resolved that an institution of learning be established, which would furnish the advantages of a thorough education alike to the young men and women, under the safe and inspiring influence of the Christian religion.

To carry out this purpose, a committee of worthy gentlemen was chosen with authority to select a suitable place for its establishment.

THE TOWN OF ANNVILLE,

Located in the midst of the beautiful Lebanon Valley, was chosen on account of its accessibility, healthfulness and inspiring scenery.

As a further inducement to locate the College at this place, a suitable building and grounds were donated by public-spirited citizens for educational purposes. In 1866 the Institution was founded, and in 1867 chartered by a Special Act of the Legislature of the Commonwealth of Pennsylvania.

THE AIM

Of the Trustees and Faculty, from the first, has been to provide courses of study which will qualify students to be practical and self-reliant, as well as learned

The Charter plainly indicates, that it was the intention of the founders to plant an institution which would become so ample in facilities and manifold in departments as to furnish instruction in all the subjects of a general and special education, and toward this original purpose the Institution will advance as rapidly as the necessary means are secured and circumstances will demand.

OFFICERS OF THE CORPORATION.

The members composing the Board of Trustees are elected by the coöperating conferences, one-third of whom are elected annually for a term of three years.

The members of the Faculty, and two persons chosen by the Alumni from their own number, sustain an *ex-officio* relation.

FIDELITY TO PATRONS.

The members of the Faculty believe that all pupils should be encouraged to educate as thoroughly as their means and native endowment will admit, even when there is promise of only moderate success; but when a student persists in a course of indifference and manifests no appreciation of time, money, or opportunities, the Institution regards itself morally bound to make known the facts to its patrons, but not until every worthy method has been employed for his reformation.

CO-EDUCATION.

The principle of co-education of the sexes was adopted from the first by the founders of the College—and the entire absence of college barbarities and excesses, as well as the manifestation of a tendency to a higher standard of scholarship, from year to year, proves the wisdom of this natural order of things. The facilities of the College and the encouragement to a thorough education are offered alike to all. Experience has shown that there is no appreciable difference between the man and the woman, as such, as to ability in mastering the studies of a college course.

NON-SECTARIAN.

While the College is denominational in management, it is positively free from sectarian bias; and the liberal patronage which it has enjoyed from homes representing all phases of Protestant faith, as well as from the homes of non-professors, attests the fact that colleges may inculcate the principles of Christian morality without trading the religious convictions or personal belief of any one.

AGGRESSIVE IN SPIRIT.

The Institution is not bound in theory or practice to antiquated methods, but it seeks to interpret the laws of science and of life in keeping with the spirit of progress and the leadings of Providence.

GUARANTY.

Fidelity to these principles in the past is the guaranty that the Institution offers to its patrons in the future.

REQUIREMENTS OF ADMISSION.

CLASSICAL DEPARTMENT.

CANDIDATES for admission to the Freshman Class are examined in the following subjects :

Latin.—Grammar and Lessons; Cæsar, two books; Cicero, three orations; Vergil, three books; Latin Composition (Allen), thirty-six lessons; or full equivalents for these subjects.

Greek.—Grammar and Lesson; Anabasis, two books; Greek Composition (Jones), complete.

Mathematics.—Higher Arithmetic, Algebra, three books of Geometry and Elementary Book-keeping.

Natural Science.—Geography of the Heavens and Physical Geography.

Bible.—Old and New Testament History.

English.—English Grammar and Analysis, Higher Lessons in English, Prose Composition, General History, History of the United States, and Elements of Rhetoric.

SCIENTIFIC DEPARTMENT.

CANDIDATES for admission to the Freshman Class are examined in the following:

Latin Grammar and Lessons, two books of Cæsar, General History, United States History, Arithmetic, Descriptive Geography, English Grammar, and Elements of Rhetoric.

PREPARATORY DEPARTMENT.

ALL STUDENTS entering the Preparatory Department, as well as those taking higher standing, are required to pass examination in common English Branches.

GRADUATES FROM HIGH SCHOOLS.

Persons having been graduated from regularly graded or high schools will be admitted without examination, upon the presentation of certificate or diploma, and will be classified according to the character and amount of work done, as set forth in said certificate or diploma.

CANDIDATES coming from other institutions are required to furnish a certificate of regular dismission.

No ONE will be admitted later than the beginning of the Senior Year.

CANDIDATES for advanced standing will be examined in the studies of the Preparatory Course, and also in those previously pursued by the class which they purpose entering, or their real equivalents.

MATRICULATION.

Matriculation is regarded a pledge on the part of the student that he will obey all the rules of the College.

A fee of one dollar each year is required of every one who enters the College, on the payment of which a certificate will be given, entitling the holder to the privileges of the College.

COURSES OF STUDY.

The college offers four courses of study—the Classical, the Scientific, the Academical, and the Musical.

THE CLASSICAL COURSE

Is the most thorough, and should be elected by all whose opportunities will permit of their taking it, and especially by such as aspire to the ripest scholarship or purely literary pursuits. Those who satisfactorily finish this course are graduated with the degree of Bachelor of Arts.

THE SCIENTIFIC COURSE

Requires but one ancient language, either the Greek or the Latin ; otherwise it is the same as the Classical Course.

It leads to the degree of Bachelor of Science.

THE ACADEMICAL COURSE

Extends over three Collegiate years, and is as full and symmetrical as the time will admit. It is intended to furnish the necessary discipline and instruction for a practical education. A diploma will be awarded to those who complete this course.

THE MUSICAL COURSE,

In addition to the regular studies of the subject, requires a general knowledge of such branches as are best suited to a musical education.

GENERAL PREPARATORY.

During each term of the Collegiate year, two classes in Arithmetic are organized; also, one in Elementary Algebra, two classes in English Grammar—one in Analysis, and one in Definitions and Parsing; also, classes in Reading, Drawing, Penmanship, Descriptive Geography, and a Class in Book-keeping.

NORMAL DEPARTMENT.

It has been our custom for a number of years to provide a Normal Department for the instruction of teachers, or of those who intend to teach. Recently the department has been more fully organized, the course enlarged, the number of instructors increased, and the facilities improved. This department is open during the Spring Term only.

COURSE OF INSTRUCTION.

United States History (Anderson or Swinton); Physical Geography (Butler or Guyot); Political Geography (Butler); Civil Government (Young); English Grammar (Raub or Green); Higher English (Raub or Green); Reading (Appleton's Fifth); Orthography (Raub); Physiology (Mill); Written Arithmetic, A (Brooks' Normal); Written Arithmetic, B (Brooks' Normal); Mental Arithmetic, A and B (Brooks'); Algebra (Robinson's Elementary); Theory of Teaching (Raub or Baldwin); Beginner's Latin Book (Collar and Daniel.)

In addition to these the regular college work, including the Higher Mathematics, Sciences, etc., offers opportunities for advanced work.

Lectures by prominent educators on various phases of the educational work will be provided, to add variety, interest and inspiration.

DEPARTMENT OF MUSIC.

MUSIC COURSE.

The course of instruction in either Piano or Voice will occupy three years. A Preparatory year is also required of those who expect to enter upon the regular course, and are not already familiar with the rudiments of music. Pupils may devote their entire time to music or take it in connection with other studies. The stated time for completing the course may be lengthened or shortened, according to the advancement of the pupil. Some pupils will accomplish in two years what, in case of others, will require three or four. A knowledge of the elements of Harmony will be required, or one year's study, in order to graduate in either Piano or Voice. At the close of each term a written examination is required. A graduate in Voice is also expected to acquire a degree of proficiency on the Piano, sufficient to enable him to play his own accompaniments.

PRIVATE AND CLASS LESSONS.

Private lessons will be given at extra cost, but the class system is strongly recommended. It is practiced in the best conservatories of this country and Europe. Mendelssohn says: "It has advantages over private instruction; it produces industry, spurs on to emulation and preserves against one-sidedness of education and taste." "The student of music will as surely fail of a complete musical education, by taking private instruction alone, as would the student of science without the advantage of the College or University."

Students in Piano are arranged in classes of two. Pupils in Voice culture in classes of two or four. Harmony students in classes of four or six.

Elements of music, sight-singing and part-singing classes free to all music pupils. Public recitals are given by the music pupils every two months.

Pupils will take practice in ensemble playing.

RECITATIONS.

Classes in cultivation of the voice, piano-forte, organ, harmony and chorus practice receive *two lessons a week*. Students may enter

at any time, but it is very desirable that they should begin with the term on account of grading, time of lessons, etc. A careful examination is made by the teacher in charge, regarding the proficiency of all new pupils, that they may be properly classified in the course.

Sheet music, books, etc., can be obtained at reduced rates.

Those who complete the required course of study in either Piano or Voice are awarded a diploma. Diplomas will be conferred only at the Annual Commencement.

ART DEPARTMENT.

This department is well supplied with studies from the best artists, additions being made from time to time. Ample opportunities are afforded for obtaining instruction in Free-hand Drawing, both from casts and the flat, Modeling in Clay, Painting from Copy or Still Life in Oil or Water Colors, and China Decoration. It is intended to impart essential principles while training the eye and hand to accurate and successful practice.

Special advantages in this department are offered by a system of giving daily lessons, which is not customary in schools not especially devoted to Art.

Students will find works of interest and assistance in the College Library.

POST-GRADUATE COURSES.

Lebanon Valley College offers to its own graduates and those of other Colleges, five courses for non-resident study, leading to the degree of Doctor of Philosophy:

1. Course in Philosophy.
2. Course in Ethics.
3. Course in Christian Evidences.
4. Course in Political Science.
5. Course in Pedagogics.

The courses are organized and students are pursuing the studies.

For further information regarding these courses and the terms attached, that may be desired, address the President of the College.

GENERAL INFORMATION.

Lebanon Valley College is located at Annville. This village is noted for its healthfulness and freedom from those temptations to vice so common to cities and large towns. It is accessible from all points, being located on the direct route of railroad travel from Harrisburg, via Reading, to Philadelphia or New York. Trains stopping at Annville leave Harrisburg and Reading nine times a day, Sunday excepted.

BUILDINGS AND GROUNDS.

The Buildings, three in number, are situated on a fine campus of about six acres, within easy access of the railroad, postoffice, churches, etc.

The main building is a large brick structure containing Chapel, Recitation Rooms, Society Halls, Reading Room and Gymnasium, besides a number of dormitories for students. These rooms are arranged for two students each, are well ventilated and provided with wardrobes. The building is heated throughout by steam.

A second building contains the Library, Art Room, two Music Rooms, and the entire department of Natural Science with Laboratory and Museum.

THE LADIES' HALL is entirely separate from the other premises, and is under the immediate care of the Preceptress. Young ladies from abroad are furnished a comfortable and pleasant home, where they have every advantage for study and general improvement. Non-resident students board in the Institution, where they are under the continual care of the President and Professors.

FURNISHING AND OUTFIT.

Students are required to furnish their own bedding, except the mattress, bolster and pillows. They should have their blankets, sheets, pillow-cases and clothing indelibly marked with full name.

SPENDING MONEY.

Patrons are kindly but *urgently* reminded that students need very little pocket money.

It should be remembered that luxurious habits and good scholarship seldom go together, and that the principles and practice of economy are essential to a good education.

FOR ALL.

It is desired that the facilities of the College be kept within the reach of all, and it is therefore urged that jewelry be left at home, and that in dress there be no vain display.

All that is beyond a becoming neatness should be discarded by the student.

DISCIPLINE.

The object of the Institution is to afford a home, where parents or guardians may place their sons, daughters, and wards, with safety and profit, and where young men and young women may be fitted for usefulness under influences calculated to refine their tastes, ennoble their aspirations, discipline their intellectual powers, and develop a high Christian character. The Government of the College is STRICT but PARENTAL, making its appeal to the student's own sense of honor, and no one habitually guilty of immoral practices, or who is persistently disorderly, will be tolerated in the Institution. Every unexcused absence, failure, or misdemeanor of a student is reported to the Faculty, and a record made of the same.

The first three demerit marks will subject the student to private reproof; the first six to reproof before the Faculty; the first nine to reproof in public, with notice to parent or guardian; and the first twelve to dismissal from the College.

The Faculty may, on evidence of reformation, restore a dismissed student.

STUDIES AND RECITATIONS.

Students are required to pursue the studies of the classes to which they are assigned, unless exempted for special reasons. No student is permitted to take a study to which he has not been assigned, nor to discontinue a study without permission obtained from the Faculty.

GRADING.

Students are graded on their work in the Recitation Room. The standard in perfection of Scholarship is 100 per centum. The student's standing is determined by the average of his term and examina-

tion grades. A grade of less than 65 per centum will compel the student to submit to a second examination, or to repeat the study with the next lower class.

Parents having children in the College classes, and desiring their report and grades, may obtain them by applying to the Secretary of the Faculty.

EXAMINATIONS.

Regular examinations are held at the close of each term. The examinations are intended to be thorough, and serve to determine the standing of the student.

In all cases when from any cause a student has failed to be present at the regular examination, he shall undergo an examination before being permitted again to recite in the classes of the College.

The final examinations of the Seniors are held two weeks before Commencement, from which time they are subject to such duties only as are required for their preparation for graduation.

Candidates for class standing other than those who have regularly persued their studies at the College, or who bring certificates of class standing in other institutions, are required to pass special examinations, either at the beginning or end of a term.

PROMOTION.

At the beginning of each term, the old classes are re-organized and new ones formed. At or near the close of each academic year, the names of all the members of each class, separately, come before the Faculty for promotion, and those of the Senior Class for graduation, and no student is promoted to a higher class, or to graduation, except upon the unanimous vote of the Faculty.

RHETORICAL EXERCISES.

All students upon entering the institution are assigned to rhetorical classes, which are met on Wednesday of each week by members of the Faculty for literary drill. These Rhetoricals, together with the Literary Societies, afford sufficient opportunities for exercise in Composition and Oratory. Advanced classes in the College are required to take part in public exercises two or three times a year.

LEAVE OF ABSENCE.

No student is allowed to be absent during the term without special permission. The absence of a student, for even a day, during his

term-time, exerts on his progress a hurtful influence, which is seldom fully appreciated by parents and guardians ; hence no apology, but that of sickness or unavoidable accident, is sufficient to excuse a student from regular attendance at recitations.

No student, during the term, is expected to quit the Institution without the consent of the President and Faculty.

Any one withdrawing from the Institution during term-time without giving due notice and having permission to do so, will be marked upon the records as having irregularly withdrawn.

Any student prevented from attending class must present to the Professor in charge a written excuse for being absent.

RELIGIOUS EXERCISES.

Religious service is held in the College Chapel on the morning of each day, and all students are required to attend.

Students from abroad, who are residents of the College, are also required to attend public worship on the Sabbath in the United Brethren Church, unless otherwise directed by the Faculty, except those who on account of church membership, or wish of parent or guardian, may prefer to attend church elsewhere.

A students' prayer meeting, to which all are invited, is held on each Tuesday evening.

CHRISTIAN ASSOCIATIONS.

There are thrifty organizations of the Young Women's and the Young Men's Christian Associations in the College, which hold their meetings on Saturday night of each week. The moral influence of these organizations is very salutary in the institution.

LITERARY SOCIETIES.

There are connected with the College three Literary Societies—the CLIONIAN, the KALOZETEAN, and the PHILOKOSMIAN. The first is the ladies' society. Each has its proper hall and its own library. These societies are regarded as valuable aids to college work, and students are advised to join one of them.

PHYSICAL CULTURE.

A well equipped gymnasium is in operation in the main College building, to which all students have access at stated times by the payment of a small fee. A careful "Director" has oversight of these exercises to guard against accidents and immoderation.

In addition to the physical discipline of the gymnasium, the students are required to take regular exercises in the open air when the weather will admit of it, and every precaution is taken to foster health.

HELP FOR INDIGENT STUDENTS.

The College has methods of assisting a limited number of worthy young men who have not the means of defraying their own expenses, and yet scores apply from year to year, both of ladies and gentlemen, whom we have not the means to help. May not the statement of this fact be a sufficient appeal to lead many to endow scholarships, the income of which will be sufficient to help to an education those who could not otherwise obtain it.

LIBRARIES AND CABINET.

The College Library, to which all the students have daily access, contains nearly four thousand volumes. The Libraries of the Literary Societies also contain seventeen hundred volumes of well-selected and standard books. The libraries are constantly increasing by donations from friends and from the proceeds of a constantly accruing fund.

The cabinet contains a collection of specimens in Mineralogy, Geology, Zoölogy, and Natural History.

READING ROOM.

There is in the College a well-stocked Reading Room which is daily accessible to the students, and in connection with it a Natural History Club which operates in conjunction with the corresponding department of the institution.

A small fee is charged for reading room privileges.

DEGREES.

Bachelor of Arts.—This degree is conferred in course upon any student of the College who completes the studies of the Classical Course, and passes a satisfactory examination upon the same.

Bachelor of Science.—This degree is conferred in course upon any student who completes the studies of the Scientific Course and passes a satisfactory examination upon the same.

Master of Arts.—This degree is, on application, conferred upon any Bachelor of Arts, who has, for at least three years after his grad-

uation, devoted himself to literary or professional pursuits, and has, during the same time, sustained a good moral character. Fee, five dollars.

INQUIRIES CONCERNING DEPARTMENTS.

Persons wishing more detailed information than is given in this catalogue, as to courses of study, methods of instruction, examinations, etc., may address the President, or the Professor in charge of the department concerned.

SCHEDULE.

At the end of each term a Schedule of the College Exercises for the ensuing term is issued. Every student must take the equivalent of at least fifteen periods of recitations each week, unless excused by special action of the Faculty.

THE BIBLE NORMAL UNION.

A Normal Class for the instruction of Sunday School Teachers is conducted on each Sabbath by one of the Professors. The course of instruction extends over one year, and is the one provided for and used by the Bible Normal Union. A diploma, issued by the Sunday School Board of the United Brethren Church, is granted to students who complete the course.

LECTURE COURSE.

A course of popular lectures will be delivered during the Fall and Winter Terms by some of the most noted lecturers in the field.

Lectures and entertainments by the following during the past year :

Eli Perkins ; the Boston Imperial Quartet ; Rev. G. M. Klepfer ; Rev. S. Gifford Nelson ; Chas. F. Underhill, and the Pugsley Tennessee Warblers. .

In addition to these lectures, there were lectures by members of the Faculty.

ANNOUNCEMENT AND SUGGESTIONS.

From time to time additions are being made of apparatus for philosophical and laboratory purposes as well as of specimens of scientific and historic interest. Many of these additions are the gifts of friends to whom the college makes grateful acknowledgment.

The institution is prepared to suitably preserve and exhibit all specimens of any value, and in all cases the wishes of donors will be respected.

Specimens in Geology, Mineralogy, Botany and Zoölogy are especially solicited.

Contributions to the College Library will also be highly appreciated, especially of old and rare books and manuscripts, which are liable to be lost if they are not deposited in the library of a permanent institution.

Books, specimens and antique relics should be addressed to the librarian or Professor of the Natural Science Department, with the donor's name legibly signed.

TERMS AND VACATIONS.

The Collegiate Year is divided into three terms.

The Fall Term will begin Monday, September 5, 1892, and will end on Friday, December 23, 1892.

The Winter Term will begin on Monday, January 2, 1893, and will close on Friday, March 24, 1893.

The Spring Term will begin Monday, March 27, 1893, and will close on Thursday, June 15, 1893.

Students should enter, if possible, on the first day of the term.

The charges for room rent, heat, and furniture are made on the basis of two persons to each room. In case where a student rooms alone he will be charged 50 cents additional a week. Any student not boarding in the institution and occupying a room in the building will be charged a reasonable rent for the same.

Extra washing, plain pieces, 50 cents a dozen. White dresses, etc., extra.

Each student will be held accountable for any damage he may cause to the college property. Students will be held individually responsible for all damage done to their rooms, by whomsoever committed.

Tuition and room rent are counted from the time of entering to the end of the term, and tuition from the first of the term for entrance second or third week.

We urge a comparison of these charges with those of other schools, believing that such a comparison will establish the fact that our rates are more moderate for the advantages afforded than can be found elsewhere.

TERMS OF PAYMENT.

All fees for diplomas and degrees must be paid thirty days before Commencement.

One-half of all other bills in advance. Balance at the middle of the term. This rule will be invariably enforced. No student will be admitted to classes until all bills are satisfactorily settled with the Financial Secretary.
